

# DAVIT GODERDZISHVILI

[LinkedIn](#) | [GitHub](#) | +995 558000127 | dgoderdz@gmail.com

## Skills

- Python | JavaScript | TypeScript | C++ | C | Node | Express | React | Next | Redux | PHP | FastAPI | jQuery | MongoDB | MySQL | Git | Jest
- Frontend | Backend | Full-Stack | OOP | Unit Testing | English, Georgian, Russian – All professional proficiency or above and German A2

## Experience

<b>Technical Project Manager</b>	<a href="#">Mazeg</a>	Remote	08/2025 - Present
<ul style="list-style-type: none"><li>• Leading end-to-end delivery of client projects, coordinating planning, execution, and stakeholder alignment.</li><li>• Leveraging coding and design skills to make decision making efficient in a team as well as with clients.</li><li>• Managing B2B partner requirements and ensuring seamless integration of digital solutions into client operations.</li><li>• Monitoring KPIs, budgets, and workflows to optimize project delivery and scalability.</li></ul>			
<b>Product Owner</b>	<a href="#">Mtebi</a>	Remote	2023 - Present
<ul style="list-style-type: none"><li>• Overseeing multiple projects from concept to launch, managing scope, deadlines, and cross-functional delivery.</li><li>• Defining product vision and roadmap by closely collaborating with clients to understand and prioritize their needs and objectives.</li><li>• Leveraging hands-on software development experience to provide clear, technical insights during client discussions, enhancing communication and decision-making efficiency.</li><li>• Streamlining project processes by reducing the need for technical meetings, allowing for more direct and effective team collaboration.</li><li>• Overseeing the development lifecycle from conception to deployment, ensuring that product goals are met within deadlines and quality standards.</li><li>• Acting as a bridge between clients and the development team, facilitating clear and precise communication of project requirements changes.</li></ul>			
<b>Design Engineer</b>	<a href="#">IoTRocket</a>	Remote	2024 - 2025
<ul style="list-style-type: none"><li>• Develop and maintain full-stack applications, utilizing a range of technologies including, JavaScript, TypeScript, React.js, Next.js, Node.js, Nest.js to drive business solutions.</li><li>• Lead the design and user experience of project interfaces, ensuring intuitive and effective interaction for users, using Figma.</li><li>• Manage project timelines and deliverables, coordinating between team members to ensure efficient workflow and timely completion of objectives.</li><li>• Contribute to marketing campaign strategies and execution, enhancing brand visibility and user engagement across various platforms.</li></ul>			
<b>Software Engineer</b>	<a href="#">Cisco</a>	Remote	2022 - 2023
<ul style="list-style-type: none"><li>• Led the design and development of multiple enterprise-level automations of Signal and Power Integrity Team, using the latest technologies of <b>JavaScript, Matlab, and C++</b>.</li><li>• Designed and implemented scalable tools for reducing the project lifespan by 80% from average of 10 to 2 days by using <b>Python, Pandas, NumPy, Matplotlib, etc.</b> that efficiently addresses users and serves hundreds of employee requests daily.</li><li>• Established and maintained documentation standards for codebase, ensuring clear communication and knowledge sharing within the team, leading to a reduction in onboarding time for new team members.</li><li>• Optimized existing algorithms in MATLAB and C++ for signal and power integrity analysis, resulting in a 25% improvement in computational efficiency and faster project turnaround.</li></ul>			

## Education

<b>Bachelor of Computer Science</b>	<a href="#">Free University of Tbilisi</a>	Tbilisi, Georgia	2017 - 2021
<ul style="list-style-type: none"><li>• Major in Electrical and Computer Engineering</li></ul>			

## Mentorship

- **BitCamp:** Coding Bootcamp Mentor responsible for mentoring and giving career advice to SWE students (**01/2021 - 04/2022**)

## Others

- **Touch RGB:** Oversaw ticketing and event operations, streamlining access and attendee management. (**Apr 2025**)
- **Touch Point:** Managed event operations with a focus on ticketing workflows and partner coordination. (**Jun 2024**)
- **Touch23:** As the Product Owner, with event founders, successfully orchestrated the seamless integration and utilization of an innovative event app, enhancing attendee experience and facilitating effective communication in a dynamic in-person event environment. (**12/2023**)
- **TES 2021 Event:** Designing, Planning and Marketing of **TES 2021**. The sales funnel that generated 300% increased lead flow. (**12/2021**)
